Summer Professional Development

Texas Aquatic Science
Middle School & High School APES

Wednesday, June 20, 2018
9:00 - 2:00

Texas Aquatic Science is a comprehensive aquatic science curriculum, from molecules to ecosystems, and headwaters to ocean, for middle school and high school students. This workshop is designed to introduce the curriculum, how to best use the activities and supplemental material which enhances the curriculum. Below are aspects of the curriculum that make it perfect for classroom settings.

- ✓ Written for middle school and high school students.
- ✓ Designed to help teachers make students aware of the importance of water to life, aquatic ecosystems and what we must do to conserve water and aquatic life.
- ✓ Hands-on classroom and field activities
- ✓ Science investigations, games, models, Internet projects,
- ✓ Lessons embed higher order thinking skills, provide depth and complexity of learning, and engage students in many contexts and methods.
- ✓ All activities are aligned with Texas Essential Knowledge and Skills for sixth through eighth grade and for Aquatic Science and Environmental Science courses for high school.

Registration due June 20, \$10 pre-registration fee required
