

Urban Wildlife Saturday

March 18, 2017 10 a.m. - 3 p.m.

More and more, people in urban areas are seeing wildlife in their backyards and neighborhoods. These creatures now living with us raise many questions: What species commonly live in urban areas? What do you do if you see them? How do you attract them – or repel them? What if you find them injured? What if they become a nuisance or a danger? Whom can you call when you need help?

Come to the Center and learn the answers to these questions and many more.

Our speakers will cover topics ranging from general urban wildlife issues to more specific animals such as bees, raccoons, bats and opossums.

Where: John Bunker Sands Wetland Center
655 Martin Lane
Seagoville, TX 75159
972-474-9100
www.wetlandcenter.com

Cost:

Because many wildlife rehabbers depend solely on donations to remain up and running, we are asking, in lieu of paying your entrance fee to the Center, that you bring cash so you may donate to one of the rehab organizations presenting.
