Children Enrolled & Age:

1. _____

2. _____

3. _____

****All age ranges are accommodated during lessons. When registering children, please keep in mind that if you would like your child to receive class materials, answer questions and/or participate in class activities, they will also need to be registered for the class regardless of age.**

***Although we will book for single programs (\$8.00), we recommend that you book for a complete session to secure your spot for a class.**

CC Info: _____ exp _____ Sec. Code _____ zip _____

****Total cost of program is due by check, credit card or money order prior to the start of each session****

On occasion we may need to change the topic of a program and JBS Wetland Center reserves the right to do so.

HOME SCHOOL GROUP BEHAVIOR AND PARTICIPATION EXPECTATIONS

Please review with your students and chaperones before your JBS Wetland Center visit.

- JBS Wetland Center Programs are field **studies**, not field **trips**. Please ensure that students are aware that they will be involved in a science class and will be expected to conduct themselves accordingly.
- **Discipline is the responsibility of the students, parents and/or chaperones.** Students that cannot be controlled will be asked to wait in the visitor's center with a chaperone.
- **JBS Wetland Center educators / naturalists are professionals in the environmental education field** with much to offer your students. They are expected to treat all visitors with consideration and respect. In return, students, teachers, and chaperones are expected to treat our educators / naturalists with consideration and respect.
- **Parents and chaperones are expected to be active participants in the JBS Wetland Center program.** We make every effort to have small group sizes in our field classes, however, sometimes groups are larger than preferred and it is very important that teachers and chaperones help facilitate programs and maintain group control.
- **Please respect the wildlife, natural surroundings, nature center, and fellow students. Voices should be kept low when around the wildlife, on the boardwalk or other areas where wildlife is present.**
- **Please do not sit on boardwalk rails, enter the wetland without permission or touch wildlife.**
- **Please do not pick or damage any plants.**

I have read the JBS Wetland Center Parent and Chaperone Information for field studies and have reviewed with my child(ren) the above behavior and participation guidelines. I understand and agree to the JBS Wetland Center's expectations and billing policies.
