

# Field Investigations & Hands-on Science Designed for 4th & 5th Grade Students

*Do your students know where their water comes from?  
Do you want them to learn more about water quality and conservation?*

**This is the perfect field study for your students!**

## We Can Help You!

The John Bunker Sands Wetland Center is a 2000 acre wetland located in Seagoville. The water from our wetland provides water to you and your students. What better way to teach students these concepts than to show them a source of their water! We offer hands-on field investigations for students that focus on wetland ecology, water quality and wildlife at the wetland.

### Students will be able to:

- Collect Macroinvertebrates
- Identify Plants
- Analyze Water Quality
- Identify Bird Life
- Learn water conservation
- Have fun and Remember their visit!

### *Scheduling Information:*

- Classes for 4th & 5th grade students
- Programs last 1.5 hours
- Limit 60 students
- \$6.00/per student

### Programs Offered:

- Wetland Ecology
- Birds - The Nesting Generation
- Wasting Water is Weird - A Lesson in Conservation

### *Immerse Yourself...*
