

# It's Story TIME

## Nature Storytime

*Do your little ones enjoy being in nature? Come and join us as your 3-5 yr. old learns how to appreciate nature through story books and exploration. Making a craft, singing songs and hands on activities are all part of the fun. All classes are held on Tuesdays, 10:00-11:00, Cost is \$6.00/child.*

**June 8** - Owls are the theme of today! Join us as we learn about how special owls are in the book "**Owl Moon.**" An owl craft and a brief walk outside are part of the program.

**June 29** - Kids will explore caterpillars and butterflies as we read "**The Hungry Caterpillar**" and learn how they change from one form to another. Activities include an outdoor game about butterflies and a butterfly craft the kids can take home.

**July 13** - Frogs, turtles, ducks and dragonflies: wetlands are hopping with life! During today's reading adventure, "**Near One Cattail**" kids will learn all about the wildlife that call the wetland home. Kids will take a walk on the boardwalk to look for these wetland creatures and make a frog craft to take home.

**July 27** - Journey with Little Skink and find out what happens when he encounters crows and other animals along the way in the book "**Little Skinks Tail.**" After our story we will learn how different animals protect themselves in the wild.

**August 10** - We'll make geography fun as we learn about towns, states, countries, and planets with Sasparillo, the "**The Armadillo from Amarillo**" We'll end with a walk on the boardwalk to introduce new visitors to the amazing scenery at the wetland.

**August 24** - Truffla Trees. Swamee-Swans and Humming-fish await the reading group as we read "**The Lorax**" by Dr. Suess. We will head outside for a fun recycling activity and learn songs that introduces conservation and the importance of everyone doing their part to keep our planet clean!
